FOR IMMEDIATE RELEASE

Beth Thomas Joins AdEdge Technologies as Project Manager.

Buford, Ga. (June 2009) – AdEdge Technologies today announced Beth Thomas has joined the AdEdge Team as Project Manager. Ms. Thomas will be responsible for project development, execution, and applications engineering for adsorption, filtration, ion exchange, and other technology projects. In addition,

“We are extremely pleased to have Ms. Thomas join the AdEdge team,” said Greg Gilles, Vice President & Principal, AdEdge Technologies. “Her addition fuels the exceptional growth AdEdge has achieved over the past few years. Her extensive experience and exceptional reputation in the water treatment industry furthers AdEdge’s commitment to providing high quality treatment solutions to customers.”

Ms. Thomas brings to AdEdge more than 28 years of experience in the water treatment industry, in a variety of water treatment disciplines. Ms. Thomas holds a Bachelor of Science degree in Biology from Metropolitan State College, and studied Biochemistry and Agronomy in the graduate school at Colorado State University.

Headquartered just north of Atlanta, Georgia, USA, AdEdge Technologies (www.adedgetechnologies.com) specializes in the design, development, manufacturing and supply of innovative technologies, adsorbent-based products, and integrated solutions that remove contaminants from process or aqueous streams. AdEdge offers a full range of conventional and innovative treatment technologies to achieve tough standards including adsorption, metals precipitation, coagulation, filtration, clarification, ion exchange, advanced oxidation, and membrane based solutions.
